#067		Google Playstore	CRITICAL	Pending	Hold	Add the declaration page after registration for the Contact list usage by TTU. If the user accepts then proceed else do not register the user. This is required as per Google Playstore as currently Google has removed the app from playstore because we are downloading user's contact list without this declaration	
#068		Google Playstore	CRITICAL	Pending	App live	Need to work on the Google Policies and update them accordingly to make the APP live and available on Play Store	
#069		Call handler	HIGH	Pending	Working	Issue of "Cannot Play This Video" still comming sometimes on the screen. - Need to check if the application starts to download the video again while it is playing	
#070		Admin	HIGH	Pending		The new parameter added to the profile: - The parameters to be made mandatory - The parameter must show on the list of basic filters available when creating a Campaign	
#071		Call handler	HIGH	Fixed	Working	The "X" button on the Call End popup screen not working in the latest release.	Tested
#072		Call handler		Pending	Working	When a call is received (or made) after some time then after the ringtone starts the TTU call handler screen comes up only after 4 to 6 seconds. Looks like TTU application is taking time to start after it has gone to sleep, Or it starts to call some api's when this happens.	
#073		Development		Pending	Hold	<b>Greeting Messages - The Admin screens for configuring the Greeting Messages need to be developed. Currently the data is being managed only from apis via Postman.</b>	
#074		Technical		Pending	Working	When the api "Adv" is called from android to server then the same call is made about 10 times simultaneously (check from the server access logs).	
#075		Technical		Pending	Pending	When the profile screen is opened on app then the getProfile api is called 2 times (checked from server access logs)	
#076		Call handler		Pending	Working	When the call is in progress and the user goes to some other application and then comes back to the Call In-Progress screen then the Call Duration counter is reset to 0.00	

#077		Technical		Pending	Hold	Need to refresh the DEV environment from current production and then do any future changes first in DEV instead of directly in production	
#078		Call handler		Pending	Working	The call handling buttons on the call waiting screen: - The color of green and red to match with the colors on other screens (incoming and outgoing call screens) - The sharpness of the images to be increased (there is currently color bleeding on the icons)	
#079		Mobile		Pending	Working	test and fix the recharge API from TTD application. Tried a recharge on 05-Oct-21 with the latest apk but the recharge failed. - Now 1 point is set to Rs. 0.50 . So also need to test if the right amount of points are deducted on recharge. - When entering the amount for recharge the text below the field still says "1 Point = 1 Rupee"	
#080		Mobile		Pending	Hide membership feature in TTU mobile application	The membership details screen does not give any details of the membership. The text content needs to be created.	
#081		Mobile		Pending	Working	When Survey menu is clicked then if no Surveys have been assigned to the user then a blank page is displayed. It should show some text saying "No available surveys at this time "	
#082		Mobile		Pending	Working	On update basic profile there is no alert to the user indicating that the profile has been updated successfully. Sometimes a message comes at the bottom. It must be an alert which the user explicitly says "OK" to.	
#083		Mobile		Pending	Working	On Additional Profile while entering the Address the keyboard covers the field and you cannot see what you are typing.	
#084		Mobile		Pending	Pending	Need to test the TTU log reports from back end	
#085		Registration		Pending	Working	<b>New user registration - When user don't fill any information on the profile section and click on Next button, APP closed without any alert or notification for fill up the information. The appropriate validation should be implemented in forms.</b>	
#086		Mobile		Pending	Working	We have added 2 more static image campaigns (Call In-Progress) to TTU as only one video was playing on Gagan Sir's phone. The white tigers one had a limit of 50 minutes per user and I guess because of that it had stopped playing. The Adv API shows that Ads are assigned but not sure why they have stopped playing.	
#087		Admin		Pending	Working	We have downloaded the In-Progress ad log report for Gagan Jain's number (9599904682) to see how many minutes that Ad has played on phone. There are some issues in the data - Some Ad durations are negative values. I think this was a known bug when a call waiting comes in between then the logs get messed up. - Where duration is 0 we need to see why - LogCallType in some cases is null	
#088		Admin		Pending	Pending	We have downloaded the CPA12 log report and the campaign assigned to only 4 numbers as below. 9999995656, 9599904682, 9599009321, 9872246237 - there is call duration issue in all numbers - Ads durations are showing negative and 0 as well - Gender showing null (when we see in the MongoDB it's value is "0", may be that is stand for Male. - When you see the same record in admin panel log section the gender shows correct.	
#089		Admin		Pending	Working	<b>Gender Issue in all users profile when we download the log csv file.</b>	

#090		Mobile		Pending	Working	Call waiting Ads Overlapping issue - If a call is in progress and the next call is waiting, the image or video ads got overlapped of the call in progress ads. Call in progress ads displaying in background if the ad size is big/large. Need to fixed
