

ISHRAE Annual Research Paper Journal

2025 Issue

CONTENTS

[From the Consulting Editor](#)

- [1. Adsorption-based Hybrid Chiller Utilizing Low-grade Thermal Energy
By Vivek Kumar Mishra, P. Dasthaqiri, E. Anil Kumar, Sourav Mitra](#)
- [2. Condenser Heat Recovery Desalination System for Residential and Light Commercial
Use By Milind V Rane, Adittya M Rane](#)
- [3. Efficient Air Cooler Based on Thickness and Position of Packaging
Material By K. Srithar, M. Rishidev, R. Saravanan, N. Balachandran](#)
- [4. Energy Efficient Hybrid Air Conditioning Systems for Indian Climatic
Conditions By Sobiya Maqbool and Ramgopal Maddali](#)
- [5. HDH Desalination and Heat Exchanger for COP Augmentation in Cold Storage System
By K. Srithar, M. Rishidev, M. Kaveri, R. Saravanan, N. Balachandran](#)
- [6. Numerical Simulation of Two-stage Vapor Compression Refrigeration System
Using Different Alternative Refrigerants By Ranendra Roy and Bijan Kumar Mandal](#)
- [7. Post-Harvest Management and Storage of Onion Using Ventilated Storage
Structure By Dr. Mahesh Kumar, Dr. M S Alam, Dr. Satish Kumar](#)
- [8. Rotating Contacting Disks for Evaporative Pre-Cooling By Milind V Rane, Adittya M Rane](#)
- [9. Understanding Seasonal Variations in Residential Electricity Consumption
Shishir Maurya, Ganesh CGS, K Prabhakara Rao, Vishal Garg, Jyotirmay
Mathur](#)
- [10. Use of Different Refrigerants in Vapor Cascade Refrigeration
System By Bijan Kumar Mandal and Ranendra Roy](#)
